Autumn Vibes

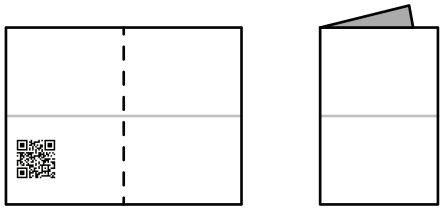

How to Fold the Mini Book

**For best results, we recommend printer being set for borderless or "edge to edge" printing.*

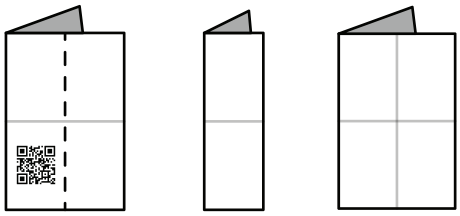

1. Fold the coloring sheet in half lengthwise.

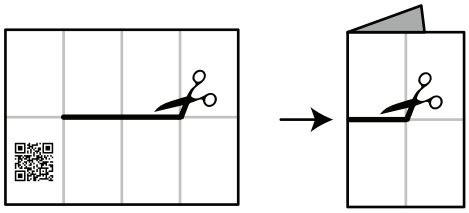

2. Unfold, then fold in half widthwise.

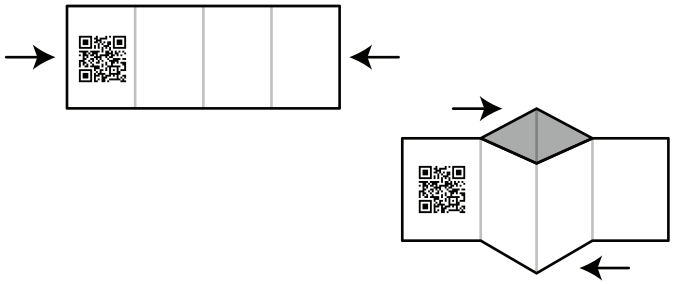

3. With the paper folded, fold in half again. Then unfold.

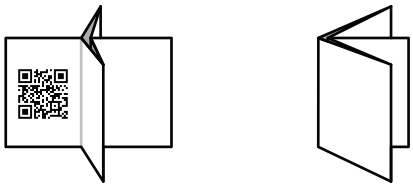

4. Create a slit in the center of the page by cutting along the midline of the paper as indicated by the diagram. Stop at the mid-point, do not cut all the way to the edge.

5. Unfold the paper completely. Fold the paper in half lengthwise. Hold the far edges of the folded paper and push them inwards to form the pages of your coloring book.

6. Fold the front and back cover away from each other to make the front and back pages of your coloring book.

Now you have a mini book! Time to get coloring!

a brighter year
